

Pathway to Licensure - Engineer

Information provided in this Pathway is generic, please contact the Association by email at registration@engineersnovascotia.ca for personalized information.
 Effective January 2, 2019 a World Education Services(WES) ICAP course-by-course credential assessment is required for an assessment by the Board of Examiners.

CEAB: Canadian Engineering Accreditation Board

NPPE: National Professional Practice Exam

BOE: Board of Examiners

* Eligible applicants may be offered the option to write the Fundamentals of Engineering Exam in lieu of confirmatory exams, however Engineering Economics must be completed. Full details on an applicant's situation are provided in a letter from the Director of Registration, all applicants are assessed individually. Approved by the Board of Examiners June 28, 2017.

** If you have 48 months of engineering experience approved by the Board of Examiners, the Canadian environment experience content may be satisfied by completion of courses as listed on the Registration page of the Engineers Nova Scotia website under Experience Requirements.
